

GEMINI BOAT

Gemini Craft was a generic name given to inflatable rescue boats by the Royal British Navy and has continued to be used by the Indian Navy for several years.

Our Gemini Boats are India's first which comply to the new Navy NCD specification ISO 6185-3:2014, and approved by international classification society RINA.

Gemini's are light weight, compact in size when stored, highly durable, and can be launched from all major types of vessels. Their capability of carrying heavy load and highly stable platform are what they are best known for.

Specifications:

CARRYING CAPACITY	: 08/10 Persons
CERTIFICATION / DESIGN / STANDARD	: Designed / Manufactured as per specification ISO 6185-3 2014, type approved by RINA
LENGTH OVER ALL	: 4.4 mtrs. (Approx.)
BEAM OVER ALL	: 1.8 mtrs.
TUBE DIA	: 450 m.m.
NO OF CHAMBERS	: 05 nos. + 01 no.(Inflatable Keel)
COLOUR	: Grey/Black
MATERIAL OF CONSTRUCTION	: Manufactured out of polyester high tenacity 1670 decitex base fabric. The outer CSM coating is hypalon / neoprene elastomer, resistant to heat and abrasion. Inner side neoprene. Fabric is type approved by classification society
KEEL	: Inflatable Keel .
FLOOR BOARD	: Marine plywood as per IS 710 coated with FRP and antiskid finish deck.
TRANSOM	: Water proof transom wrapped with fabric to ensure greater durability and protection. FRP coated transom (optional) available. Transom is capable to withstand up to 30 HP OBM
LOAD CARRYING CAPACITY	: 825 kg. minimum
TYPE	: Fully Inflatable
ACCESSORIES	: Bellow Pump, Paddles, Repair Kit, Spare valves, PVC coated carry bag. Life Jackets (Optional)
