

JASON'S CRADLE MAN OVERBOARD SOLUTIONS

The Jason's Cradle® MOB system are fully SOLAS approved, most respected MOB recovery, embarkation/disembarkation and evacuation system in the world. Jason's Cradle® is designed to retrieve people quickly and horizontally from the water, thus reducing the possibilities of "dry drowning" now more commonly known as Circum Rescue Collapse. We can offer the below four types of Jason's Cradle® products to suit your specific requirements.

STANDARD | SKU : 1321100003

The FRC Kit is suitable for all Fast Rescue Craft. It consists of a Jason's Cradle with stowage bag and a fixing kit that enables the cradle to be deployed on both port and starboard sides

FRC KIT | SKU : 1321100001

The Standard unit is suitable for most vessels with up to 4.5m freeboard. It's simply fixed to the deck or rail to enable deployment within seconds

SCRAMBLE NET | SKU : 1321100004

The Scramble net is suitable for high sided vessels, rescue zones and mass recovery/evacuation. Large numbers of passengers and crew may simultaneously disembark in the event of an emergency

STRETCHER UNIT | SKU : 1811100003

The Stretcher unit is most universally accepted method of rescuing a casualty from water. The horizontal recovery position assists in enabling the casualty's blood to remain in the upper torso, minimizing fatal effects of Circum Rescue Collapse.

Jason's Cradle products are available ex-stock across SHM's distribution network
