Lightweight Nylon Work Vest

WV-9A

U.S.C.G.

Approval #: 160.053/95/0

Description: Fabric-covered type V work vest for working environments; designed for safety, comfort, and durability. This model is our lightest weight work vest made with the same quality materials, making it a popular choice.

Features:

- Closed-cell foam is inherently buoyant and resistant to punctures
- Nylon acrylic fabric is lightweight and breathable
- International orange color for visibility
- Polypropylene black webbing for durable strapping
- Aluminum slides for adjustment
- Side-release plastic buckles for front closure
- Underarm/chest strap helps to hold the vest on the wearer and keep the life vest from riding up too high
- Pocket on right front chest piece is included
- Optional SOLAS grade retro-reflective tape for visibility
- Optional custom stenciling

Specifications:

- Exceeds USCG minimum required 17.5 lb buoyancy
- Standard size fits between 38" and 56" in chest size
- Additional sizing adds 6" to chest size, per X (1XL=62"; 2XL=68"; etc.)
- Front pieces: 14" x 10"; Back piece: 12" x 10"
- Thickness 1 5/8" per piece
- 1.5 lb weight
- Packed 10 per case
- Price based on quantity ordered: Please call or email for quotes

Donning Instructions:

1. Place arms through the work vest making sure both adjustable straps are under your arms and the shoulder straps over your shoulders. The Taylortec address stencil should be inside the jacket if worn correctly.
2. Fasten both front buckles and adjust all straps for a snug fit.
